

SINGLE

SLIDES

Slides made of stainless steel AISI 304. Metal sheet with a thickness of 2 mm formed in a CNC technique. Side panels made of HDPE polyethylene 15 mm, in the highest quality and totally damp-proof and resistant to UV.

Plates of the walls made of colourful triple layered 15 mm HDPE polyethylene, in the highest quality, totally damp-proof and resistant to UV.

Plates of the walls and platforms made of colourful 13 mm HPL (black plates made of 8 mm HPL), in the highest quality, totally damp-proof and resistant to UV.

Safe post covers made of injection molded polyamide.

Anti-slip anthracite 10 mm HPL platform plate with a very high resistance to weather conditions and attrition.

Solid construction made of stainless steel AISI 304 totally resistant to weather conditions.

Safe pipe plugs made of injection molded polyamide.

Connecting elements like screws, nuts, washers made of stainless steel. Vandal-proof screw plugs made of injection molded polyamide.

Soft conifer wood 90 x 90 mm, coreless, glued in layers with polyurethane glues, totally resistant to water. Wood posts processed in three-phased impregnation process.

Wooden posts anchored to the ground with powder galvanized and powder coated steel anchors.
